

# INFORMATION FOR EMERGENCY MEDICAL SERVICES (EMS)!

If someone you know is experiencing symptoms of a stroke, please share key information with EMS, if possible.

- Name
- Date of Birth
- Stroke signs and symptoms
- Time when the patient was last normal
- Time when the symptoms started
- Allergies
- Metal in your body
- Medications including anticoagulant
- Past medical history
- Emergency contact
- Primary care doctor

EMS are trained to **care for all stroke patients!**

EMS ensures the quickest transport to the appropriate hospital.
